

Your Pathway to Employment

1 Start your journey with Omnia Inclusive Employment Solutions

Meet with one of our friendly team members who will check your eligibility for our service, discuss your individual needs, goals and determine the best path forward, with you.

2 Build on your skills

We'll work with you to build your employability. You'll have the opportunity to participate in preemployment workshops and activities to strengthen your skills and readiness for work. You may also be referred to specialised support services to help manage and maintain your health and/or disability to successfully gain employment.

3 Work ready

When you're ready, we'll help you find suitable work based on your interests, abilities and work capacity.

4 Get the job!

We'll help you secure the role by supporting you through the interview process and induction phase. We can help with interview attire and other practical things to allow you to feel comfortable and confident to get the job.

5 On the job support

To ensure you have the best chance to succeed in your new job, we'll provide post placement support (PPS) for up to 1 year (as required) while you settle in. This can be via Teams/online, phone, out in the community, at your place of employment or in our office. We're here to support you to help achieve your employment goals.

6 Ongoing support

As you settle in, the level of support will adjust to meet your needs, which can include workplace training, support and modifications. Although we'll be in regular contact, always let us know how you're going, we're only a phone call away.
